I am an enthusiastic and driven Computer Engineering graduate currently in the 7th Semester for my bachelor's degree. I have worked on the project during my engineering which helped me in gaining skill an also knowing about the problems and how it can be solved. During this experience, I came to know I can be a team player. If I get the opportunity of working with highly professional and experienced people on any real-world problems I would like to grab it.

EDUCATION

Bachelor in computer engineering

Aditya Silver Oak Institute Of Technology, Ahmedabad

2017 - Present　　　　　　*CGPA - 9.1(Present)*
